

New York Botanical Garden,
Bronx Park,
New York City.

May 1st 1904.

Dear Dr. Kennedy: -

Thank you for your kind
and my interesting letter. I am glad to learn of
the success of your "cross-walk" and that you
print. If you still have any unpublished works
from Flicker - why don't you let me try to have
them? I shall be so glad to send you "once in awhile"
some of my puzzles & queries, as I do to Dr. Burt, and
as Prof. Garton & I used to - not to "put into print"
- as so many of the younger people expect to do -
or to "hammer into gold" but simply for the sake of
study & the pleasure of keeping "in touch" with each other.
I shall send you some duplicates also of the new things, if

You would can't leave them!

I am sorry to hear that Mrs. Kennedy has had such a trying illness this winter! It has been exceptionally cold & some and even in the history of the Garden - than our shrub & enormous support or seemly - There are also many friends who have not with family losses - Mr. Britton lost his eldest sister of pneumonia in February and there has been illness in our family also. Altogether it has been a "disusual winter" for many people and many have had to "forget it" and get off to Florida for sunshine & change. I am going "far & hemorrhagic" - the two things seem to go together - but I will keep action in my feet.

With kind regards from Mr. Britton &
myself yours sincerely Elizabeth G. Britton

Britton, Elizabeth G. 1904. "Britton, Elizabeth G. 11 May 1904." *George Golding Kennedy correspondence*
