

Cambridge

Oct. 2.

Dear Doctor,

I went yesterday  
to Providence to see  
Mr. Bridgman and on  
my return I found  
your card. I am  
sorry not to have  
seen you.

I have been nearly  
a month at Lake  
Dumore Nt, where  
there were plenty of  
fungi but comparatively  
few other things, I

collected what <sup>moose</sup> ~~ferrets~~  
I saw but they were  
common things. I  
got one *Hemalida*  
at the Ripton Gorge  
but have not had a  
chance to work it  
up. Where I found  
specimens in fruit  
I collected in quantity  
with a view to a  
possible future dis-  
tribution of our  
mountain cryptogams.

I suppose that  
you have heard  
about Robinson's

daughter. I do not  
know whether she  
is still alive or not.

Yours, truly,  
W. G. Fairbairn.

Farlow, W. G. 1896. "Farlow, William G. 2 Oct [1896]." *George Golding Kennedy correspondence*
