

I hope that you  
had a successful  
trip to Katoahelm.  
No one is here  
now except the  
Cahans who leave  
today and every  
thing is rather  
deserted,

Yours truly,  
W. G. Farlow.

Cambridge  
Aug. 5,  
1900.

Dear Doctor,

I write to say  
that the alga (green)  
from Nassau which  
you sent me is prob-  
ably no Cladophora  
brachyclados as I  
supposed it to be. At  
present, I cannot  
name it.

I cannot make  
out that there is a  
set of Renault & Cardot

Musc. Am. Lepid. Exc.  
in our herbarium. I  
supposed that they were  
incorporated in the  
Gray mosses but  
I do not find  
some numbers. You  
have a set I believe  
and, if so, could  
you give me the  
names of a few  
of the species of  
the early numbers  
so that, knowing  
the names, I can  
see whether we  
have the early

numbers at least?  
How did you  
get your set? Do  
you know where  
sets can be bought  
now?

---

The above was  
written just as I  
was leaving for  
Shelter Island last  
week and I could  
not finish until  
my return. I shall  
be again for  
Shelter Island  
some time next  
week.

Farlow, W. G. 1900. "Farlow, William G. 5 Aug 1900." *George Golding Kennedy correspondence*
