

Cambridge

June 4th
1886.

My dear Doctor,

I must apologize
for not writing sooner
about the fungus
you sent. I had an
attack of vertigo and
was obliged to go
away for a change
and your specimen
arrived while I was
away. It is a morel,
Morchella esculenta of
which I have seen but
few specimens this
year. I hope that you
found a lot of this

best of fungi. It can
be dried and used
in the winter. It is
only necessary when
dry to stew it in milk.

As you know, Thaxter's
eldest son died and
he was cabled to return.
He arrived home on
Friday.

Yours, very truly,
W. G. Faylor

Farlow, W. G. 1906. "Farlow, William G. 4 Jun 1906." *George Golding Kennedy correspondence*
