

GRAY HERBARIUM OF HARVARD UNIVERSITY,

BOTANIC GARDEN, CAMBRIDGE, MASS.,

Feb. 23,

1895,

Dear Dr. Kennedy:

I have been studying  
that Carex from the Crawford Middle  
path and there can be no doubt  
that it is a hybrid between  
crinita and scabrata.

Bailey is here and supports me  
in this opinion. If you have  
more material (It's under crinita I  
think in your herbarium) may I see  
it before describing the plant?  
I will return the specimens soon.

Thank you very much for your  
subscription to my Maine sets.

I think I shall get some good things.  
Sincerely M. L. Fernald.

Fernald, Merritt Lyndon. 1895. "Fernald, Merritt L. 23 Feb 1895." *George Golding Kennedy correspondence*
