Borough of Brooklyn, New York.

Sept. 29

1904

Dear Dr. Kennedy;

Thank you for
your little book on the
Willoughby flora. Aside from
its scientific interest as rather
no addition to it, it is an
attractive bit of work which I
am glad to have. I am sorry
that there are no meses.
My home town of Newfane
is very rich botanically and
I am often tempted to make
and publish a list of its botanical
riches.

I had a pleasant summer, but
am not strong enough to do
much tramping. The only good
tramp I had the left sick for
more than a week, but

I found *Hypnum revolutum*
and *Dicroidium pellucidum*
on that trip to Downer's Glen
Manchester, Vt. ^{near Am.} also -
several rare hepaticas. So was
almost satisfied.

Sincerely
A. H. Knott

P.S. I also got *Rhabdoweisia*
denticulata on the same trip.

Grout, A. J. 1904. "Grout, Abel J. 29 Sept 1904." *George Golding Kennedy correspondence*
