AGRICULTURAL EXPERIMENT STATION.

BURLINGTON, VT., Jan. 14, 1897

Mr. Geo. T. Kennedy,  
Readville, Mass.

Dear Sir:-- I thank you very much for the fine specimen of Eleocharis which you sent. I regret that we cannot place your name on the programme for the paper on Willoughby flora, but it will lessen our disappointment very much if we are to have the pleasure of seeing you here. I hope that you will come if it is possible. We have the beginnings of a moss herbarium which is made up largely of Vermont specimens <sup>col</sup> selected by Mr. Pringle, Dr. Blanchard, Mrs. Britton and Mr. Grout. I shall be very glad indeed to receive the new species you mention, and I trust that if you come up you will find something among our duplicates that will be of interest or value to you. In case you do not come I will send you a copy of a list of our duplicates in the hopes that you may make some selections from them.

Yours truly,

Dictated to B.

L. R. Jones.
