

Dear Sir.

Reading Mass

Nov. 9, 1908.

I have received your letter of Nov 7. Since writing to you last winter, I submitted specimens of the *Sphagnum imbricatum* (*S. Austinii* Sull.) to Prof. F. S. Collins and he reported my determination to be correct. The other species I have not reported on yet.

This summer I have worked largely on the Hepatics and have collected about 40 varieties in this region. I should be glad to exchange these for hepatics or mosses. if you are interested.

Yours truly.

Woburn St.

Chester B. Kingman.
