

ans
Nov 17. 1903

Hartford, Nov. 15, '03,

My dear Dr. Kennedy,

I enclose
you a specimen of *Desiana-*
dontium longirostre B. & S. from
Willoughby. Have you collected
it there? This specimen
came from Cossy Brook.
I have also found it at
Cold Brook,

I wish you could have
been at Willoughby while
we were there.

I got *Buxbaumia indusata*
on a log near the spring
that supplies the house.
Apparently everything on the
State list lives somewhere at
Willoughby. I have been
getting some hepaticae too,
they are almost as abundant
as the mosses.

Mr. Britton gave me a specimen
of *Hypnum scorpioides*, collected

by Mr. Faxon at Sutton. Do you know
in what bog he got it?

Please remember me to Mr. Kennedy.

and believe me,

Yours sincerely,

Amos Dorey.

96 Garden St,
Hartford Conn.

Lorenz, Annie. 1903. "Lorenz, Annie 15 Nov 1903." *George Golding Kennedy correspondence*
