If you have any suggestions at any time for the Program Committee - they will be welcomed. It is desired to make the Program as profitable as possible. Will you yourself not have something to contribute?

Dear Dr. Kennedy,

I am sending the mounting paper by Brousdon's Express today - and I hope it will reach you in perfect condition - I am sorry that you should receive any imperfect sheets in last lot - and I am sending an extra quire in this - which I hope will amply cover - I am glad you spoke of it.

I am thinking that the next Club meeting may have special interest for you - Dr. Davis is to talk about some special observations he and others have been making of the submerged ledges at Wood Hall.

I am sorry that you have been suffering with the grip - and hope you are free from it.

Good wishes to you always.

Sincerely yours
Robert Allvar.
