

Breezy Point - N.H.  
July 9<sup>th</sup> 1913

Dear Doctor,

We received your letter yes-  
terday and we are broken  
hearted to hear you are not  
coming - Do brace up & sur-  
prise us by appearing later  
We shall be here till Thursday  
P.M. the 17<sup>th</sup>, when we start  
for Québec & Murray Bay.  
Come with us up there if  
the spirit moves you. It will  
do you good to see new scenes

Never saw this variation before  
and the botany makes no mention  
of it. It is beautiful mountain  
weather now - cool & breezy  
& heavy rains have improved  
the looks of everything. Hoping  
you are well and that we  
may see you yet we are  
as always

Affectionately yours  
Emilia Blanche  
Williams

These people. There is lots of  
room here for you & you would  
be very comfortable. Miss Shore  
of Fall River who met you at  
Willsburgh is also very sorry  
you are not coming. We  
took a beautiful <sup>drive</sup> yesterday in  
the spurs of Mt. Mooseilauke  
and on a dry sandy esker I  
collected a number of light  
yellow *Lilium philadelphicum*.  
One was double. These yellow  
flowers were freely mixed in  
with the normal red ones. I

Williams, Emile Francis. 1913. "Williams, Emile F. 9 Jul 1913." *George Golding Kennedy correspondence*
