HISTORY OF THE CASE Z.N.(S.) 1618

An application for the stabilisation of the name Ceratophyllus soricis Dale, 1878 was first received from Mr G.H.E. Hopkins (Zoological Museum, Tring, Herts., U.K.) on 18 June 1965. It was sent to the printer on 12 August 1965 and printed on 2 November 1965 in Bull. zool. Nomencl. vol. 22: 233–234. Public Notice of the possible use of the plenary powers in the case was given in the same part of the Bulletin as well as to the statutory serials and to seven entomological serials. Dr Holthuis commented that the spelling soricis could only be validated by the use of the plenary powers, and that the original type material could not, as such, be set aside. Both these points were taken into account in drafting the ruling here given.
