

[from H.L.]

Middlebury Vt. Sept 30, 1921

My dear Mr. Deane:

Your letter of Sept 28 is at hand, and the copy of Furness's Richard 3^d, which already has an honored place in my library ^{beside} the Macbeth & Hamlet.

I am most grateful to you for these gifts.

The inquiry regarding the two specimens of V. novae-angliae from Shelburne Aug. 13, & Sept. 6, 1919 is interesting. I enclose a copy of my chart of the range of the species, which you need not return. You will note that Shelburne, N. H. is not marked. I vaguely remember making out a table of various violets that you & Miss Brown collected that year in Shelburne. The plants I believe were all returned to you.

I should be pleased to re-examine these specimens, & to correct any error that I possibly made two years ago. My health is far better now than it was then.

Specimens of this species from Wis. grew for years luxuriantly in my violet beds. Note the data on no. 89 of my Distrib. 1910. With kind remembrances to Miss Brown,

Turn to Rhod. 15:113 June 1913
for new western stations
of V. novae-angliae House
+ to Rhod. 7:1-3, Jan. 1905 for my paper on V. novae-angliae

Sincerely,

Ezra Brainerd.

Brainerd, Ezra. 1921. "Brainerd, Ezra Sep. 30, 1921." *Walter Deane correspondence*
