Friend Deane:-

The package of
plants was received in excellent
condition and I have found very
great satisfaction in looking them
over. Your plants are always a
delight to me, and some of them
are always especially interesting
because rare. The Sagittaria
is worth all I sent you.

Carters' specimens were very
pleasing in every way and to
deal with him in an exchange
is most agreeable. I am afraid
you said too good a word for my

specimens, but I am putting
up a very choice lot, taken as
a whole, which will be sent to
him in a day or two.

For this and numerous other
favours I have to thank you, which
I do most heartily, for they are
greatly appreciated.

In regard to certain Erica-
ceae and Umbelliferae, more anon.
Am looking for material. Will
forward something in a few days.

Yours sincerely
C. H. Eames.
