

St. Louis, 12 April 1848

Mr. W. Deane.

Cambridge, Mass.

Dear Sir!

Your letter received. All my plants are from the Ad. Secretang, covered by the manual. In all time I could not go further and, than one day would bring me. In the morning I had to carry paper to mine enclosure, so my plants covered than a territory with a radius of about 20-30 miles around St. Louis. Sure it include than some parts of Illinois too St. Clair Co and Madison Co. So is Leptocaulis patens from Illinois, about 10 miles from St. Louis and so many other. I was in the believe that I send you my Rydbeckia palustris also, and I may be mistaken.

Very truly
Yours
Henry Eggert.
