

J. LUNELL, M. D.,

LEEDS, N. D.

August 5<sup>th</sup> 1899.

Walter Deane, Esq.,  
Cambridge, Mass.

My dear Sir:

I acknowledge the receipt of a collection of specimens from Mr. Torrald. They are an elegant set, complete and selected to suit my taste. Thanks!

I am about to send you the following plants, in order to give you filled sheets:

- 1) *Tenacis integerrimus* Nutt.
- 2) " *flattensis* Nutt.
- 3) *Lithospermum canescens* Lehm.
- 4) *Lycopus lucidus* Turcz.

and fruiting specimens of  
5) *Psoralea argophylla* Pursh, and  
6) *Asclepias ovalifolia* Dec.

Before sending them, I would like to know if you want anything

from this summer's harvest, I enclose  
a list of <sup>the</sup> collected plants, the 1<sup>st</sup> part  
containing those mentioned in Gray's Manual,  
the 2<sup>nd</sup> part not mentioned there, and the 3<sup>d</sup>  
part not mentioned in Britton's Ill. Flora.  
Please return the list marked, if you  
want any of the plants.

Then I can make up one package  
of the whole. I expect that you  
will be satisfied.

The fruit of *Asclepias ovalifolia* was  
nearly impossible to find as we have  
had three tornados here this summer,  
accompanied with hail. The tops of nearly  
all *Asclepias*-plants were cut off, but  
I found luckily an unusually well pro-  
tected place where the storms had done  
no damage.

Please answer early.

Yours Truly  
J. Lemell.

Lunell, J. 1899. "Lunell, Joel Aug. 5, 1899." *Walter Deane correspondence*
