

San Diego Cal May 20/76
Mr Geo E Darwin
Dear Sir

Your package and
the letter of the 4th inst. have
received, for which accept my thanks.
On the 2nd inst. I sent to you live
seeds of *Chilanthus Chilensis*. To day
I send you another parcel of ferns, con-
taining 1 *Chilanthus Cal*

2 " *Chilensis*

3 *Pol. Cal*

4 Noth *Newberryi*, which

I hope may reach you in good condition.
I regret that the previous packet found
ill.

Your botanical contributions
greatly interest me,

My health is too poor to permit
me to do much in the way of study
or work.

I have not found *Ad. Lap. Veneris*
in this County, but it grows a short distance
below the Mexican line.

Enclosed is a packet of what Palmer
sent to me from southern Utah for *Nath.*
tenera

I send to you herewith a list
of my desiderata, with the number of
specimens I desire, I do not wish
to accumulate any more than enough
for my two herbarium sets, and another
set to give away. I do not propose
to exchange anything but the ferns of
this County, and those only to a limited
extent.

I have not seen Mr. Cooper yet,
I hope she will visit us here.

The young fronds of *L. Chuslandii*
are whitish, the older brown, and
the mature ones in fruit of a rusty
chocolate color. —

Very truly yours,
L. Chuslandii

Cleveland, Daniel. 1876. "Cleveland, Daniel May 20, 1876." *George Edward Davenport correspondence*
