

Charlotte, Vermont.

H May, 20th, 1876.

My Dear Friend:

Calyss. I hope you  
can keep it to show at  
the next meeting of the  
Ant. Soc., if you think  
it worth while to do so.

I am working hard at  
botany, meaning to keep  
aboard with our plants  
and put up 4000 specimens  
this year. I will ask you to  
send by to secure for me  
100 strong roots of *Drillium*  
*communis*, before it goes to root.  
Yours truly,  
C. F. Pringle.
