

H

Portland, Oregon.

Nov., 30th, 1881.

Dear Mr. Davenport

Your post-card of Oct. 3rd, to care of Mr. Grinn was forwarded me here by good Dr. Terry. I have all along through the Indian troubles in Arizona felt grateful that I was safely and far away from there; for I wish to save my life to do much botanizing there in future.

When Prof. Sargent came in into this Northwest, he appointed me so much work for each month, that I have been able to scatter but little time for writing; and, though I ~~have~~ collected a good supply of nearly all the forms ~~that~~ have come in my way, I have not of course found anything in

which you would feel special interest.  
I may mention that, while in N. Cal.,  
I get many specimens of *Aegiphilum Nutt.*  
various, and in this state I have made  
large specimens of *Polygonatum Seminiferum*,  
and many of *Silaginella Oregonia*.

I have been nearly three months in  
Oregon and Washington, but hope to leave  
in a few days for San Francisco, and thence  
go directly home for a few weeks at least.  
Mr. Sargent's work must occupy me for half  
of next summer, after which I shall expect  
to finish the season by collecting in some  
parts of the West. Though it may be some  
time ere they can be distributed, I find  
pleasure in buying up great numbers of  
plants at home. In California I get  
about 150 species, and my Oregon collection,  
largely of arboreal species, will fill a quite  
box. So much snatched up, as Dr. M.

Not the least of my pleasure here  
is the getting acquainted with the botanists

of this region; to their credit I am glad  
to say that I find them (with only the  
one exception that you know of thus far,)  
agreeable company. Last Sunday I spent  
most pleasantly in the house of Mr. Atkinson.  
Some of the younger but most promising  
botanists I have asked 15 and 15,000  
anything strange to them. One of these is  
Mr. C. F. Henderson, Portland, Oregon,  
Coll., Ex.; and, as I suppose his name is not  
in the Bot. Directories, I will beg you to  
get it inserted as above in Mr. Curtis's  
next issue. Mr. A. is a teacher in this city,  
and a fine young gentleman; will probably  
work next summer in the comparatively  
unexplored field of S. Oregon.

How I should like to see you and  
the Misses. Sargent; it is possible that I  
shall visit Boston, if I go home this  
winter. All well.

Yours faithfully,  
C. G. Pringle.

Pringle, Cyrus G. 1881. "Pringle, C.G. Nov 20, 1881." *George Edward Davenport correspondence*
