

H

Charlotte, Vermont.

5th May, 1888.

My dear friend,

I am not yet gone, as you can see; am waiting for last-passes and papers to come through Prof. Sargent.

Now I wish you would contribute fine articles to Garden and Forest! You could photograph your specimens for illustration, and see them reproduced beautifully. And I suppose you would be liberally paid.

Do you see the journal and notice some of our photos, reproduced by some process which preserves the beauty of the photographs?

I am wishing I might have a lens by which I could take

pictures of flowers and small plants
somewhere near life size. How did you
take the beautiful photograph of *Phil-
anthus Mexicana*, for instance? I can't
focus my lens so near. I am wishing
this, because I am hoping to secure this
year a great many illustrations for the
Garden and Forest, which I have come
to admire much.

I may set out any day. Thanks
for your advice to call on Mr. Cramer,
which I am planning to adopt—

Yours faithfully,

C. G. Pringle.

Tomorrow I am to become fifty years old!

Pringle, Cyrus G. 1888. "Pringle, C.G. May 5, 1888." *George Edward Davenport correspondence*
