

H

Charlotte, Vermont.

18, March, 1890.

My dear friend:

I am delighted with
 the photo. proofs and must by you
 to print and mount for myself, my
 boys and my Monterey friends (shown)
 as follows:

No 102 (3 photos.)

104 (2 ")

105- (3 ")

✓ 106 (8 ")

✓ 108 (8 ")

109 (2 ")

110 (3 ")

111 (3 ")

112 (4 ")

And send me account of the photo ex-
 penses of last year.

Not long ago you enquired the height
 of Noth. ripida. It is one to 100 feet.

I am to see a good deal this summer
(D.V.) of the mountain range in which
this and *Aspidium* n. sp. grows especially
between San Luis Potosi and Tampico
300 or 400 miles south of Monterey;
and I trust to get more of both
plants and other new species of ferns
besides.

Yours faithfully,
C. G. Pringle.

Mr. Cleveland of San Diego writes
that he expects to come east this summer
and go as far as Maine. He buys plants
from me most liberally this year.

Pringle, Cyrus G. 1890. "Pringle, C.G. Mar 15, 1890." *George Edward Davenport correspondence*
