H x October 26<sup>th</sup>.

My dear Mr. Davenport:

Thank you for  
the postal. I feel quite  
encouraged that I should  
have guessed the pedigree  
of B. Wilson's find.

I hope Mrs. Norton sent  
you fresh material of Trichom-  
anes - incisum. I am truly  
sorry to say this, but I do  
not wish you to be misled,  
otherwise I would not write  
you thus. I hoped never  
to have to tell you that -

I have found her un-  
believable, and have grieved  
much over it. She tried in  
an untruthful way to get  
possession of the original ma-  
terial of this fern which Miss  
Anna Groot found in Brazil-  
leiro. You remember Miss Groot  
first found this European  
var. in America. She is  
not aware that this matter  
is known to me, and I have  
been truly unhappy over it.  
I trust she really has found  
it herself.

I knew type material of  
Clintonianum was in Spr.  
and intend to see it some-  
time. I know you would  
enjoy my friend Mrs.  
Wright also Mrs. Terry.  
They are such fine true  
women, and that counts  
above all things.  
I subscribe for Rhodora  
(I have all the back  
numbers also) and shall  
anxiously await your  
article.

Davenport, Elizabeth Braxton. 10-26. "Davenport, Elizabeth B. Oct. 26 [no year]." *George Edward Davenport correspondence*
