

K

Alameda Nov. 30th. 1874

G. E. Caverpost

Dear Sir,

Yours of 26th
ult was duly received. In the
past month I have been a vis-
tior to carbuncle boils, so that
my correspondence has been ne-
glected. I do not know how
many of our local ferns are
contained in my herbarium,
but I might be able to furnish
you with the following named
species, which are not on your
own list:-

Polyodium californicum.

" *Scouleri*

Adiantum Chilense

Pellaea undulone daefolia

P. mucronata.
Gymnoparme triangulans
Wodwardia aduncus
Aspidium munition
" *argenteum*
" *Californicum*

These are all that grow in
this district which are not in
your herbarium; but I shall
probably be able to add to
the number during next sea-
son. I wish you would send
me duplicate specimens of any
you can spare. We have of you
catalogue 3705, 3706, 3731, 3755.
I am now overhauling my
herbarium, & in the course of a
month I will know what I
have already collected. I am
very truly Yours
W. H. Gibbs

Gibbons, William P. 1874. "Gibbons, William P. Nov. 30, 1874." *George Edward Davenport correspondence*
