Feb 4 1878

Geo. E. Davenport Esq

Dear Sir

I received your ps- (1). cord & day
and will send you what Botrychium
I have next week. I have not etched
any of the species of this genus yet.
Therefore you will require to return them
but I will let you know when I write
again. I have none of the small
species. They are not found here.

I send you an Etching of Asplenium
Brookleyi. The plant was given to me
by Prof H. C. ussey of Lafayette. Ind.

The Etching of Cystopteris fragilis, and Cheilanthes
languinosa are printed direct from my plate.

I am very busy writing up descriptive matter
and will have no leisure time until May.

I received Mr. Larson's letter & day from
John P. Morton &c.

If my business will admit next summer
I will get some good plants for you

Yours Respectfully

John Willard
