LISTS OF THE PRINCIPAL INDIGENOUS WEST AUS-TRALIAN PLANTS OF ECONOMIC IMPORTANCE OF NATURALISED AND ALIENS AND WEEDS ESTABLISHED IN WITH THE STATE. THEIR VERNACULAR NAMES.

The accompanying lists were prepared at the request of the Commonwealth Institute of Science and Industry by a Committee appointed by the Royal Society of Western Australia. The members of the Committee were:—

- Mr. W. B. Alexander, M.A., Keeper of Biology, W.A. Museum (convener).
- Mr. C. E. Lane-Poole, Conservator of Forests.
- Mr. D. A. Herbert, B.Sc., Economic Botanist, Government, Analyst's Department.

The Council considered that these lists would be of interest to members of the society and others, and therefore decided to publish them. It is recognised that there are many other plants of some local economic importance which have not been included in the first list, *e.g.*, trees yielding timber used for fencing-posts or fuel, flowering-plants whose seeds are collected for local cultivation or export, and shrubs and grasses which are eaten by stock.

The vernacular names given in the lists are those which the Committee recommends for use in this State. Those for endemic plants are in almost every case names already widely known in the State, though in some few cases where the same plant is known by more than one vernacular name the Committee has chosen the one that seemed most suitable. Of the alien plants only a few have acquired local vernacular names and these have been adopted by the Committee except in cases where they were definitely incorrect. For the remainder the usual British text-book name has been given.

The Council of the Society, recognising that suitable vernacular names for the W.A. wildflowers would help to popularise their study, has asked the Committee to continue its work with power to add to its numbers. The Committee will welcome assistance from any person interested in this subject, and would be particularly grateful to anyone who would send in lists of vernacular names already in use in the district where he or she resides. Communications should be addressed to the Chairman of the Committee, Mr. C. E. Lane-Poole, Forestry Department, Perth.

Scientific Name.		Vernacular.	Value.
Rutaceæ—			
Boronia megastigma		Sweet Boronia	Cultivated for its scented flowers.
Boronia elatior		Broad-leaved Boronia	Cultivated for its flowers.
Malvaceæ—			
Hibiscus Huegelii		W.A. Hibiscus	Ornamental shrub.
		in the second second	ormanicitati sittuo.
Sterculiacea-		W	
Sterculia diversifolia		Kurrajong	Ornamental tree and Fodder-plant
Euphorbiaceæ—			
Euphorbia Drummondii		Balsam Spurge	Poison-plant
Casuarina æ-			
Casuarina Fraseriana		Sheaoak	Timber used locally for cabine
			work and shingles.
Salsolacea-			
Atriplex semibaccatum		Salt-bush	Fodder-plant.
Atriplex nummularium		Old-man Salt-bush	do.
Nuetaginag			
Nyctagineæ— Boerhaavia diffusa		Tar Vine	
		Tai vine	do.
Leguminosæ-			
Oxylobium retusum Oxylobium parvilflorum		Bloom Poison	Poison-plant.
Gastrolobium bidens		Box Poison Kite-leaf Poison	do.
Gastrolobium bilobum		Heart-leaf Poison	do. do.
Gastrolobium Callistachys		Rock Poison	do.
Gastrolobium calycinum		York-road Poison	do.
Gastrolioium grandiflorum Gastrolobium hamulosum		Wallflower Poison	do.
Gastrolobium ovalifolium		Hook-pointed Poison	do.
Gastrolobium parvifolium		Gilbernine Poison Berry Poison	do. do.
Gastrolobium spinosum		Prickly Poison	do.
Gastrolobium villosum Isotropis striata		Crimp-leaved Poison	do.
Templetonia retusa		Lamb-poison	do.
Crotalaria Cunninghamii		Templetonia Bird-flower	Ornamental shrub.
Tephrosia purpurea		Pan-ja-da	Used by aborigines as a fish-poison
Clianthus Dampieri		Sturt's Desert-pea	Cultivated for its flowers.
Kennedya nigricans Kennedya coccinea	••••	Black Kennedya	Ornamental climber.
Hardenbergia Comptonian	 a	Coral Creeper Blue Kennedya	Fodder-plant.
Erythrophloeum Labouche	erii	Camel Poison	Ornamental climber. Poison-plant.
Acacia armata		Kangaroo Wattle	Ornamental tree.
Acacia acuminata	••••	Jam	Timber used for cabinet work and
Acacia spp		Mulgo	fencing-posts.
		Mulga	Wood yields valuable charcoal for
Albizzia lophantha		Crested Wattle	producer gas plants. Ornamental tree.
Rhizophoraceæ			
Ceriops Candolleana		Pod Manan	
		Red Mangrove	Timber used as fuel by pearlers
Bruguiera gymnorrhiza		Black Mangrove	Bark contains 45 per cent. tannin Bark contains 45 per cent. tannin.
Myrtaceæ—			and contains to per cent, tainin.
Agonis flexuosa		Pennormint	0
Melaleuca Leucadendron		Peppermint-tree Cadjiput	Ornamental tree.
Champalanstum			Timper used in the North-West for fence-posts.
Chamaelaucium uncinatum Eucalyptus marginata		Geraldton Wax-plant	Ornamental shrub.
and pous marginata		Jarrah	Ornamentaltree. Timber exported
			for general purposes and used
President			locally for sleepers, piles, fence
			posts, as well as for furniture.
Eucalyptus loxophleba		York Gum	Timber exported and used locally

LIST OF THE PRINCIPAL INDIGENOUS PLANTS, ETC .- continued.

Scientific Name.	Vernacular.	Value.
Myrtacea (continued)-		
Eucalyptus diversicolor	Karri	Timber exported and used locally
		for many purposes.
Eucalyptus gomphocephala	Tuart	Timber used for railway-trucks bolsters, heavy wheelwright work timber-jinkers, etc.
Eucalyptus redunca	Wandoo	Timber used for purposes similar
		to Tuart, also for turnery work and telpehone and telegraph insulator pins.
Eucalyptus patens	Blackbutt	Timber used for coach building.
Eucalyptus calophylla	Marri (Red Gum)	Timber used for poles and fetchels of heavy jinkers, etc. Kind used for tanning containing up to 86 per cent. of tannin, also in medicine.
Eucalyptus ficifolia	Scarlet-flowering Gum	
Eucalyptus cornuta Eucalyptus longicornis	Yate Morrell	Timber used for wagon-work. Timber used for coach building
Eucalyptus longicornis	Morrell	and for mine props and fuel on the goldfields.
Eucalyptus salmonophloia	Salmon-gum	Timber used for mine props and fuel on the goldfields.
Eucalyptus salubris	Gimlet	Timber used for mine-props and fuel on the goldfields. Bark contains 18.22 per cent. tannin.
Eucalyptus transcontinentalis	Great Western Gum	Timper used for mine props and fuel on the goldfields.
Eucalyptus Campaspe	Silver-topped Gimlet	Timber used for mine props and fuel on the goldfields.
Eucalyptus Clelandi	Goldfields Blackbutt Goldfields Flowering	Timber used for fuel on the gold- fields. Timber used for fuel on the gold
Eucalyptus torquata Eucalyptus calycogona var.	Gum Snap-and-Rattle	fields. Timber used for fuel on the gold-
gracilis Eucalyptus pyriformis	Pear-gum	fields. Timber used for fuel on the gold-
Eucalyptus occidentalis var.	Mallett	fields. Bark contains 45 per cent. tannin.
astringens Eucalyptus macrocarpa	Macrocarpa-gum	Ornamental shrub.
Santalacea-		
Fusanus acuminatus Santalum cygnorum	Quandong Sandalwood	Fruit used in confectionery. Timber exported to China and Malaya for manufacture of joss- sticks. Distilled, yielding oil used medicinally.
Ebenaceæ— Maba humilis	Australian Ebony	Timber used for cabinet work, walking-sticks, musical instru- ments, etc.
Loranthaceæ- Nuytsia floribunda	W.A. Christmas-tree	Ornamental tree.
Proteaceæ- Xylomelum occidentale	Native Pear	Timber used for cabinet work,.
Banksia verticillata	River Banksia ;	do, do.
Banksia littoralis	Swamp Banksia	Timber used for fuel in Perth. do. do.
Banksia grandis	Broad-leaved Banksia	do. do.
Banksia Menziesii	Banksia Narrow-leaved	do. do.
Banksia attenuata	Banksia Prickly Banksia	do. do.
Banksia ilicifolia		
Composita-	Swan River Daisy	Cultivated for its flowers.
	Differe rer tor article	
Brachycome iberidifolia Waitzia aurea	Yellow Everlasting Pink Everlasting	do. $do.$ $do.$

LIST OF THE PRINCIPAL INDIGENOUS PLANTS, ETC .- continued.

Scientific Name.	Vernacular.	Value.	
Ascelepiadeæ— Sarcostemma australe Marsdenia Leichhardtiana	Caustic Vine Dooba	Poison Plant. Aboriginal Food-plant.	
Solanaceæ— Nicotiana suaveolens Duboisia Hopwoodi	Diteral	Poison-plant and aboriginal nar- cotic.	
Myoporinæ- Myoporum deserti	Pituri Dog-wood Poison	do. do. Poison-plant.	
Hæmodoraceæ— Tribonanthes longipetala Anigozanthus Manglesii		Tuber used as food by aborigines. Cultivated for its flowers.	
Dioscorideæ— Dioscorea hastifolia	Yam	Tuber used as food by aborigines.	
Liliaceæ— Bulbine semibarbata Stypandra glauca Xanthorrhœa Preissii Xanthorrhœa reflexa	Native Leek Blind Grass Blackboy Reflexed Blackboy	Poison-plant, do. Gum used in manufacture of var- nishes, etc. Distilled, yielding various chemical products.	
Kingia australis	Grass-tree	Fibre exported for manufacture of heavy brooms.	
Callitris robusta	Cypress Pine	Timber used for fence posts in the Kimberley division.	
Callitris glauca	Desert Cypress Pine	Timber used for fence posts on the Eastern Goldfields and in the Murchison districts.	
Rhizospermæ— Marsilea Drummondii	Nardoo	Aboriginal food-plant	

LIST OF NATURALISED ALIENS AND WEEDS.

Fumaria officinalis		 Fumitory	
Reseda Luteola			
Barbarea praecox (B. vi	nlania)	 Yellow-weed	
Sisymbrium officinale	ulgaris)	 Early watercress	
Sinapis arvensis		 Hedge Mustard	
Capsella Dunas		 Charlock	
Capsella Bursa-pastoris		 Shepherd's Purse	
Cakile maritima		 Sea Rocket	
Raphanus Raphanistrum	1	 Wild Radish	
Silene gallica		 French Campion	
Dianthus prolifer		 Proliferous Pink	
Saponaria vaccaria		 Cow Soapwort	
Spergula arvensis			
Cerastium vulgatum		 Corn Spurry	
Stellaria media		 Mouse-ear Chickweed	
Malva rotundifolia		 ontonemotore	
Geranium molle		 Marsh-mallow	
		 Dove's Foot Geranium	
Erodium moschatum		 "Wild Geranium"	
Pelargonium graveolens		 Rose Geranium	
Oxalis cernua		 11.02	
Trifolium procumbens		 Hop Clover	
Trifolium dubium		Lesser Clover	
		 LOSSOI OTOVEL	

44

LIST OF NATURALISED ALIENS AND WEEDS-continued.

Trifolium fragiferum	 	Strawberry Clover
Trifolium tomentosum	 	Woolly Clover
Trifolium repens	 	White or Dutch Clover
Trifolium glomeratum	 	Clustered Clover
Trifolium subterraneum	 	Subterranean Clover
Trifolium medium	 	Mammoth Clover
Trifolium pratense	 	Red Clover
Trifolium arvense	 	Hare's-foot Clover
Trifolium striatum	 	Knotted Clover
Trifolium incarnatum	 	Crimson Clover
Melilotus parviflora	 	King Island Melilot
Medicago lupulina	 	Black Medick
Medicago sativa	 	Lucerne
Medicago maculata	 	Spotted Medick
Medicago denticulata	 	Burr Clover
Vicia sativa	 	Common Vetch
Vicia sepium		Bush Vetch
Lupinus hirsutus		Blue Lupine
Rubus fruticosus		Blackberry
Rosa rubiginosa		Sweetbriar
Oenothera odorata	 	Evening Primrose
Cucumis myriscarpus	 	Wild Melon
Opuntia monacantha	 	Prickly Pear
· · · ·		Groundsel
	 	Flax-leaved Fleabane
Erigeron linifolius	 	Stinkwort
Inula graveolens Cryptostemma calendula	 	Cape Weed
		Stinking Roger
Tripteris clandestina	 	Scotch Thistle
Onopordon Acanthium	 	Milk Thistle
Carduus marianus	 	Spear Thistle
Carduus lanceolatus	 	Woolly Star Thistle
Kentrophyllum lanatum Centaurea solstitialis	 	Yellow Cockspur
	 	Chicory
Cichorium Intybus	 	Rooted Cat's Ear
Hypochaeris radicata		Dandelion
Taraxacum officinale	 	Sow Thistle
Sonchus oleraceus	 	Rough Sow Thistle
Sonchus asper	 	Bathurst Burr
Xanthium spinosum	 	Noogoora Burr
Xanthium strumarium	 	Pimpernel
Anagallis arvensis	 	Olive
Olea europaea	 	Cotton Bush
Gomphocarpus fruticosus		Centaury
Erythraea Centaurium	 	Dodder
Cuscuta europaea	 	Paterson's Curse
Echium plantagineum	 	Apple of Sodom
Solanum sodomeaum	 	Black Nightshade (poisonous)
Solanum nigrum	 	African Boxthorn
Lycium Horridum		Thorn Apple (poisonous)
Datura Stramonium	 	Tree Tobacco
Nicotiana glauca	 	Pointed Toadflax
Linaria elatine		Broad-leaved Bartsia
Bartsia latifolia	 	Pennyroyal
Mentha Pulegium	 	Horehound
Marrubium vulgare	 	Woundwort
Stachys arvensis	 	Rib grass
Plantago lanceolata	 	Nettle-leaved Goosefoot
Chenopodium murale	 	Fat-hen
Chenopodium album	 	

LIST OF NATURALISED ALIENS AND WEEDS-continued.

Rumex Acetosella		 	Sheep Sorrel
Rumex pulcher		 	Fiddle Dock
Rumex conglomerat	us	 	Clustered Dock
Rumex crispus		 	Curled Dock
Emex australis		 	Double-gee
Polygonum avicular	е	 	Wire Weed
Euphorbia Peplus		 	Petty Spurge
Euphorbia terracina		 	Carnation Weed
Ricinus communis		 	Castor Oil (poisonous)
Urtica urens		 	Stinging Nettle
Asphodelus fistulosu		 	Onion Weed
Watsonia angusta			Watsonia
Romulea rosea			Guildford Grass
Homeria collina		 	
Homeria commu		 ••••	L L
Homeria miniata			(poisonous)
Homeria miniata		 ••••	Two-leaved Cape Tulip
Junque conitatue			(poisonous)
Juncus capitatus		 	Capitate Rush
Cyperus rotundus		 	Nut Grass
Panicum sanguinale		 	Crab Grass
Panicum crus-galli		 	Barnyard Grass
Paspalum distichum		 	Water-couch
Paspalum dilatatum		 	Golden Crown Grass
Chloris gayana		 	Rhodes Grass
Cynodon Dactylon		 	Couch Grass
Hordeum murinum		 	Barley Grass
Phalaris canariensis		 	Canary Grass
Polypogon monspeli		 	Annual Beard Grass
Andropogon haleper	isis	 	Johnson Grass
Oryzopsis miliacea		 	Many-flowered Millet Grass
Agrostis alba		 	Red Top
Ehrharta longiflora		 	Veldt Grass
Ehrharta calycina		 	Veldt Grass
Holcus lanatus		 	Yorkshire Fog Grass
Lolium temulentum		 	Drake
Lolium perenne		 	Rye Grass
Lolium Italicum		 	Italian Rye-grass
Triticum sativum		 	Wheat
Secale cerale		 	Rye
Avena fatura		 	Wild Oat
Avena sativa			Oat
Aira caryophyllea		 	
Aira minuta		 	Fairy Grass
Bromus moximus		 	Fairy Grass
Bromus sterilis		 	Great Brome
Bromus madritensis		 	Sterile Brome
Bromus anioloides		 	Madrid Brome
Bromus mollis		 	Prairie Grass
Briza minor		 	Soft Brome
Festuca bromoides		 	Shivery Grass
Dactylis glomerata		 	Fescue
Poa annua		 	Cocksfoot
		 	Annual Meadow Grass
