

New York,

July 20 1892

My dear Dean

The two boxes with *H. orbiculata*
& *H. fimbriata* have both come to
hand. Many thanks for your kindness.
It is just what I wanted. Now I should
have liked 3 or 4 spikes of the *fimbriata*,
as I am making an effort to pull out
the flowers of the larger flowered orchids
so as to show the parts of the flower in
the dried specimen - a most difficult
thing ~~and~~. I wish, if possible, to get
specimens so freed that they can be
tacked to a card board and shown to a
class. In ordinary specimens the parts
are so pressed together that no untaught
eye can make them out. I have succe-
ssed pretty well with *Rogonia phlogensis*
and *Calopogon pulchellus*. *H. fimbriata*
& *H. psycodes* & *H. leucophaea* have good

Morong, Thomas. 1892. "Morong, Thomas Jul. 20, 1892." *Thomas Morong letters to Walter Deane*
