Professor,
J. FRANKLIN COLLINS, PH. B.,
Curator and Instructor,

PROVIDENCE, R. I., Sept 23, '99

My Dear Deane,

Churchill put in last Tuesday with us at the B. W. Herbarium, the Bailey and the Collins Herbaria, overhauling the Legumes. He filled many blanks. Then he took him examples on the Case Corolla and showed him *Gnaphalium squarrosa*, *Carduus acanthoides*, *Russelia tripartita*, *Antennaria Lindleyana* - etc. He was radiant - and even discolored with delight.

I am full of work again, the new high hopes of Dr. Farnum - and may be live and prove!

You should see your Peggy. Give Christine though they are shouldn't. Barnes writes a note approving the new book.

Yours very truly
Bailey
