

Tenisset, Mass. Sep 10, 1909

My dear Deane,

Mrs Bailey wants me to ask you and Robert, or you alone if he cannot come, to visit us here from Friday afternoon - Sep 17<sup>th</sup> to the following Monday, or longer if you find it agreeable, I shall try to have Weston join you. Mrs Bailey and I

have both set our hearts on this and will feel much disappointed if you cannot come. I will go up on

the 21<sup>st</sup> to attend College of our next day, but I expect to return here, where it is now delightful. We arrived here yesterday afternoon. Our present party consists of my wife's mother, herself, Whit, the maid & myself. Whit goes to town tonight, and they come down here for Sunday. We are delighted to get back.

Was pleased to hear to find Whiting maritima, Aster Nova Anglia and Statice linaria in all the glory. I see old names, which I have shown to you, from a cupful this

man to find a long article of mine  
about the Birds here, in the Prov  
Journal, No 10122 about it, but  
much love, I hope to send you a  
copy, I am delighted to have the  
Journal like me of again & thus give  
me an occasional extra \$, which  
I sometimes always need, and after  
all this sickness, more than ever.

Ya! Ya!

Hoping to hear good news -

Yours ever

W. W. Bailey
