

Somerset, Sep 7. 1911

My dear Deane,

I find that College  
does not open till Oct 1st, Sept 27,  
and my plan now is to run  
up on Tuesday the 26th & return  
here next day noon.

Mrs Bailey is very, very  
anxious for you and Paul to  
repeat your visit. She expects to  
be here till Oct 2d - and I shall  
remain at least till Oct the  
30th. So, if you and Paul, to  
whom I have also just written,  
can arrange a date, we will be  
delighted with any odd time you  
agree upon & will try to get Weston  
and Collins, Dr B.L.R., confirms  
as from Dr Danee, that the  
Dept of Botany will be, as it has,  
merged in Biology, to carry on my  
dissertation. However, much de-

penda upon York, I think it would  
have been decent in the Pres to  
have written me, but it would  
have been too exceptional to expect  
from that quarter. Hereafter, I know  
any child I may collect will go  
to the Club. I am profoundly  
disgusted with the whole  
situation. Do please try to  
arrange the trip. I get up to  
the opening, not from duty, but  
desire, and even the last is getting  
less imperative. May is much  
better. She has this Miller  
with her today. Mushrooms give  
With regards to Madeline  
Ever faithfully yours  
W. W. Bailey
