CORRIGENDUM

References in Warne, 2001 (Fig. 2) to Hancock Museum registration numbers should be as follows. For the lectotype of *Ponticocythereis ichthyoderma* (Brady) the registration number should read 1.24.32. For the lectotype of *Ponticocythereis quadriserialis* (Brady) the registration number should read 1.40.10. This is in accord with the renumbering of these specimens by Davis and Horne, 1988 subsequent to the original designation of lectotype specimens by McKenzie, 1986.
