

[PROC. ROY. SOC. VICTORIA, 19 (N.S.), PT. II., 1906.]

ART. VII.—*Note on Caligorgia flabellum from Port Phillip.*

BY PROFESSOR SYDNEY J. HICKSON, D.Sc., F.R.S.

[Read 11th October, 1907.]

In the Proceedings Royal Soc. Victoria, Vol. II., 1890, p. 138, I gave the name *Primnoella australasiae*, Gray, to a specimen belonging to the Alcyonarian family Primnoidae, obtained by Mr. J. B. Wilson at Port Phillip. Mr. J. Versluys, of Amsterdam, has examined a fragment of the colony that is still in my keeping, and informs me that the species is more closely related to *Caligorgia flabellum* of Ehrenberg. I have carefully re-examined the specimen with the help of Mr. Versluys's recent memoir on the Primnoidae of the Siboga Expedition, and I am convinced that his opinion is sound. I ask therefore to correct my report by substituting the name *Caligorgia flabellum* (Ehrenberg) for *Primnoella australasiae* (Gray), in the list of species obtained at Port Phillip.

Hickson, Sydney J. 1907. "Note on Caligorgia flabellum from Port Phillip."
Proceedings of the Royal Society of Victoria 19(2), 46–46.
