

My Son — Walter —

Among a few plants
that came into my hands
when I was last in London —

is *Maesdia quadrifolia* —
and this was accompanied
with some newspaper Clippings.

Thinking these may be of
a few moments interest to
you I am mailing them
today

I have not taken

any opportunity - to look up
the "Nardoo plant" - to see
whether or not it is
mentioned under that name
in any of the books -

It would be an interesting
pursuit also, to see if one
could fix the date of the
clippings - or the expeditions
referred to - ^{collection of}
The plants

of which this is one -
were said to have been
got together prior to 1856

by Col. Fragar. But
that may not be true
of every one in the collection.
I hope that Charlotte
will be with me at Gray
Herbarium on

Of course you two will
be there -

Love from us both
to you two -

Faithfully Yours
