Walter S. Allen

My Friend Sir:

Your favor 16<sup>th</sup>  
at hand and I hasten to  
reply to thank you for  
your kindness in verifying  
my specimens. My *Scutellaria*  
was questioned by Mr. Vasey of  
Washington but I could not  
persuade myself that it was  
wrong and I am very glad  
indeed to have it decided  
right. The *Asplenium* I  
was very doubtful about  
~~and~~ but if my *C. urticum*  
is *C. murale* what is my  
*C. murale*? I was completely  
surprised however in regard  
to the *Sanicula* and think  
there must have been some  
mistake in the specimens

I sent you. We have both-  
specimens here both- very  
distinct- it seems to me  
and both- tallying I  
thought with- dr. Gray's Manual  
description And I have never  
had the least- suspicion that  
any thing was wrong with-  
them. I will next week  
send you specimens of both-  
plants and if not too  
much trouble will ask  
you to examine them both-  
I regret that many of  
my specimens are incomplete-  
lacking fruit or roots- but- as  
I wrote you before I collect-  
very largely for foreign  
exchange and do not have  
time to make two gatherings

in order to secure both-  
fruit- and flower. I could  
also improve the color  
very much of many of the  
specimens were it not for  
the number that- I have  
in press at- once and I can  
hardly do all justice in  
changing papers. I have over  
10000 foreign specimens mostly  
English, German, Austrian, Swiss  
and French, also a rather fine  
herbarium of New Zealand  
specimens. I am not- sur-  
e- but- that- at- some time  
my foreign plants- may be  
of value to Prof. Watson or  
May for the purpose of  
comparison and at- any  
time will be glad to send  
them any specimens I may

have. My brother (C. H. L. G.)  
who is a wholesale druggist-  
in this city and well  
familiar with the history  
of rob- of commerce and  
my self have undertaken  
to issue a work on  
"American drugs". It will  
fall to my part to  
give the history and  
description of the plants-  
we may consider. As I  
have not all the books  
at my command that  
I might wish could I  
get you to look over the  
proofs and criticise any  
statement- you may think  
doubtful? I enclose you  
our prospectus and beg  
your pardon for the

infirmities - on your time  
in reading this long letter.

Yours truly  
C. S. Lloyd
