Mr. Walter Deane,
Cambridge, Mass.

Dear Friend Deane:--

It has been a long time since I have heard from you. However, I occasionally see reports of what you are doing in the journals. I mail you a catalogue herewith that will give you an idea of the work in which I am now engaged. My latest fad is bibliomania on the subject of botanical works. I have also been paying some little attention to the local fungi but with little success. Have you ever studied them? We have recently enlarged our business by renting the five story building adjoining our business house and I have reserved a room in the new

building which I am going to make into a museum of botanical and pharmaceutical objects. Let me hear from you some time especially if I can serve you.

I have in my library a copy of Josselyn's New England Rarities which was printed in Boston in 1865 by Wm.

Veazie, containing notes and comments by Edward

Tuckerman. I understand that Josselyn's "Two Voyages to New England in 1638 and 1663" was published in the same style. I am very anxious to obtain the work and if you can find it on sale at any Boston book house I will be very thankful if you will advise me.

I wrote to Wm. Veazie but as I do not find his name in the Mercantile Agency I presume the firm is out of existence by this time.

Yours truly,

C.G.Lloyd.
