My Dear Deane:

I was much entertained by the breezy letters from Morong, and am much obliged for the opportunity to see them. -- I too, am anxious to see the Memoirs. They are dreadfully slow. Have not yet read half the proof.

Yes, tell Mr. Raub to send his Caries. I cannot promise to look at them at once, I am worked to death, with so many demands upon my head and hands. And Caries come to me with perplexing regularity and frequency. I must have 600 or more specimens stuffed away to mount, the accumulation of the last 3 mos. Then I am contemplating overhauling all my sedges -- if I can get the time! -- Labelling each specimen with a distinct and authentic label, and putting every species and variety in

a cover by itself. I have a box of
1000 genus covers of a new and pretty style,
which I have not yet unpacked. They have
been in my office for weeks. Luckily
they are paid for! I have also neat labels
printed for these covers.

I have just got a bit of *C. House-*
Angliae from Prince Edward Island,—
the fourth locality known!

Mrs. D. says that you and I must
be lovers! How is it?

Yours truly &c
L. H. Bailey.
