

ITHACA, N. Y.,

Jan. 28 1890

My dear Deane:

Ephrius munn wiggle  
waggle! The picture is here,  
and I am entirely surprised! I  
had never guessed it. A book of  
some sort lay in my mind. You  
could not have pleased me better, for  
men are better than books. You  
certainly have my best thanks. I am  
going to have a neat key to the picture  
printed and framed with it. A  
number of the photos. I recognized at  
once. The good honest face of Bayley  
Balfour is a pleasure to look upon. I  
took a fancy to him, and his pleasant  
wife as well. It is a great pleasure  
to see likenesses of those of whom you  
have heard and read so much.

Yes, all atrata from Mt. Washington  
is var. ovata Booth.

Farnell sends what he calls C. gy-  
noerates, but it is C. exilis !!!!!!!

Yes, I remember that Williams  
sent me C. flava and C. Hoodii.  
The specimens are not yet mounted.

Hurrah for Mr. Marcy!

Yours &  
Dailley
