ber, January, and April.

## HORTICULTURAL DEPARTMENT.

L. H. BAILEY, PROFESSOR OF HORTICULTURE.

Ithaca, N. Y., Sept. 21, 1890

My Dear Seane:

I am now at home. It seems natural to address you at Cambridge. I hope that you had a pleasant summer.

I am still hoping to get some extras of my English Carex article. I really ought to have one myself, any how. I sent them money to pay for printing ex-  
cepts.

I suppose that my names of California Carexes will appear in Cal. Acad. Sci. Rose is getting up an account of some Southwestern plants in which Carex, Lysitricina var. angustior will appear. I guess I shall have to make a contri-  
bution to Gazette that will clean up my little odds and ends.

Janssens's Carexes have come, including a nice lot of C. Torreyi.

I have ordered a few extras of the  
Rhododendron. They will cost you  
\$250.<sup>00</sup>

I am getting together an immense  
herbarium of cultivated plants.

College opens in ten days.

Yours truly  
J. H. Bailey
