My Dear Deane:

I was much grieved to hear of the death of Dr. Robinson's little girl. The affliction seemed very near to me, for I admired the child. How uncertain we are of the morrow!

Yesterday I sent you by express the cacti which I should have returned long ago. I find that I get less and less time to name plants, and yet how I enjoy it! Sometimes long for the time when I may live the day long with the plants and the out-of-doors.

I hope you are both well. My little family is well. Thine, L. H. Bailey
