

# BODIANUS PENTACANTHUS.

\*\*\*\*\*

## CHARACTER GENERICUS.

*Opercula* squamata armataque, margine lævi.

*Bloch. ichth. 7. p. 22.*

*Thoracici.*

## CHARACTER SPECIFICUS, &c.

BODIANUS ruber, operculis quinque-spinosis.

BODIANUS PENTACANTHUS. B. aculeis  
quinque ad opercula.

*Bloch. ichth. 7. p. 29. t. 225.*

Jaguaraca.

*Jonst. Ruysch. Marcgr. &c.*

---

Aucta est hisce temporibus scientia naturalis miro incremento, visumque est physicis nova multa genera instituire; cumque piscium qui *thoracici* vocantur ingens sit numerus, inde fit ut quo major diversitas, eo latiori distributione opus sit. E novis igitur est generibus Bodianus, qui multas amplectitur species, nonnullas pulcherrimis coloribus obductas. Maria incolit Brasiliensia species quam depinximus magnitudine quasi dimidiata, ab indigenis vulgariter *Budiano* dicta.

RX

542

THE  
FIVE-SPINED BODIAN.

GENERIC CHARACTER.

*Gill-Covers* scaly and armed; but smooth at the margin.

SPECIFIC CHARACTER, &c.

Red BODIAN, with five spines on the gill-covers.

Jaguaraca.

*Piso. Ray. Willughb. &c.*

---

This is one of the new genera into which the vast number of *thoracic* fishes are, in consequence of the late accessions to natural history, at present distinguished. It contains several species, some of which are remarkable for the beauty of their colours: that represented on the present plate is a native of the Brazilian seas, and is represented of about half the natural size. Its native name among the Brazilians is *Budiano*.

Shaw, George. 1802. "The Five-Spined Bodian, *Bodianus pentacanthus* [Pl. 542]." *The Naturalist's Miscellany* 14(CLVIII), <https://doi.org/10.5962/p.310989>.
