

Picked the violets & pressed
them this after-
noon. My poor boy
is not half
as good as
you & course.
I have been at work on
our society libn. lately, and have
thought of you frequently, - could not
help it when I came to things you
had given me. When you write again,
I should like a label for the Lycos-
odium inundatum you sent me from
Jaffrey last summer.

I shall enclose specimens of a
Polygala that we call P. verticillata, L.
var. ambigua. Do you agree? "N.Y.
to No. and westward" says the Manual,
but this grew in our Forest Park, -
very scarce, however. And this wretched
broken specimen from Miss Clarke, -
is it Mycrotophyllum crenellum? She
collected it in Martha's Vineyard.

Springfield May 13-1895

Very dull &
poor to
wet
time.
Over.
W.M.

The violer too, - we call it V. primulæ-folia; it agrees well enough with the description of that, but I could never satisfy myself that it was the same as Bigelow's V. acuta - synonym you know. Don't return any of the enclosures.

Our libn. Has some rubbish in it, mostly put in by one person, which I hope to clear out & replace in time, but on the other hand a good many very nice specimens that would be prized in any Herbarium. They are valuable for their rarity, their completeness, or from being named by eminent botanists, and some have two, or even all three, of the merits.

Short stories in letters just now when I am up to my eyes in work.

I had a pleasant note from your wife some time ago. Please remember me to her and believe me

Yours very truly
Maria L. Owen.

P.S. There is to be a bi-centennial anniversary celebration in Nantucket in June, that I can't bear to think of, I am so sorry to be away at the time. It was bad enough to lose the week of the A.A.F. but this other disappointment is ten times worse.

M.L.O.

Owen, Maria L. 1895. "Owen, Maria Louisa May 13, 1895." *Maria L. Owen letters to Walter Deane*
