ON AN ORCHID-DISEASE. — The common Orchid-disease known as 'spot,' characterized by the formation of brown spots on the leaves, proves to be due to the presence of a species of *Plasmodiophora*, which will be known as *Plasmodiophora Orchidis*. A detailed account of its life-history will be given in this Journal at a later date.

G. MASSEE.

Massee, George. 1895. "On an orchid-disease." *Annals of botany* 9, 170–170.
