

Cambridge, Mass. June 21 1921

My dear Walter,

Please accept my sincere thank for your good notes regarding Shelburne conditions. I ought to have acknowledged the first one a few days ago, but I have been suffering a good deal from various troubles.

I have obtained for you, and I shall bring it up to Shelburne, the June number of the National Geographic Society's Magazine. It contains some fine pictures of grass flowers much enlarged and in colors. I am making use of the journal pictures to interest our Committee in my plan for a glass-flower room for Blaschka grasses.

The obtaining of money for any purpose now seems hopeless, but I am on the war-path.

Please give kind regards to Miss Brown, and the Philbrooks and every good message for yourself, from us both,

Yours faithfully

S. L. Goodale
