

1852

T. C. D. ~~Nov.~~ Dec 2⁷Y^r dear friend.

I am glad to hear that Wright has brought such an excellent set of New Mexican things & of course take the set that you have for me £ 8. 12. 0 to your credit. I shall apply to Sir W^m by & bye for the £ 10. 8. 0

As I understand you, I am not immediately to send you this money but put it in bank for you

to draw against. It was Thos. Todhunter who paid the last Tatting bills & I think I shall get him to keep the accounts, as he is more regular than I am in such matters -

The MSS. of 2^d part of Mereis is now ready & gone to press, & I hope the printing will be finished a week

a two after Christmas. I am now
working by daylight on the New
Zealand Algae for Dr. Hooker, & by
night lay out plants for gluing.
My glue-woman talks of going to
America next spring! Shall I send
her to Cambridge? -

Dec 2-52
I see by Hooker's New Journal
that Wright is going either to Oregon
or Japan - If he has sets of plants
for sale from either, remember
J.C.D. - Whoever goes to Japan, beg
of them to look after Algae, & obey the
directions for collecting & preserving, given
at page 28 of Introd. to New Bor. Amer.
- The Japanese Algae, so far as known,
are very curious - but since Thunberg's
time none have been received -

There must be opportunities of collecting
during a coast survey. I am interested
some of the Officers on board the
ships. Yours affly W. H. Harvey.

Harvey, William H. 1826. "Harvey, William Henry Dec. 2 [no year]." *William Henry Harvey letters*
