BIBLIOGRAPHY OF AUSTRALIAN LICHENS.

By E. CHEEL.

[Communicated by J. H. MAIDEN, F.L.S.]

[Read before the Royal Society of N. S. Wales, September 2, 1903.]

The following is, as far as I can ascertain a complete list of publications on Australian Lichens issued previous to September 1903.—(E. Cheel).

[Introductory Note.—Mr. Cheel of the Botanic Gardens Staff is custodian of this group of plants in the National Herbarium, Sydney. A few years ago the Government purchased from the Rev. F. M. R. Wilson his collection of Lichens (chiefly Australian) comprising about 20,000 specimens. The number of species is not yet accurately determined. The herbarium has received large accessions of such plants from other sources.—J. H. Maiden, Government Botanist and Director of the Botanic Gardens, Sydney.]

NEW SOUTH WALES.

1. Brown, R.

A list of 58 lichens, common in Europe and Australia are given in this work.

2. Persoon, C. H.

Four species are given from New Holland, two of which are from Port Jackson.

3. Crombie, J. M.

Seventy-three species are enumerated, twelve of which are new to science. Port Jackson and Grose River are mentioned in this State.

4. Woolls, W.

Fourteen species are mentioned by Woolls as having been collected, chiefly near Parramatta.

5. Krempelhuber, Dr. A.

6. Krempelhuber, Dr. A.

One hundred and twenty-two species are enumerated, several of which are described as new. Thirty-five are recorded for N.S.W., chiefly from Richmond and Clarence Rivers, and from New England district.

7. Knight, C.

*Contribution to the Lichenographia of New South Wales.— Trans. Linn. Soc., 2nd Series, Vol. ii., p. 37, (1882).*

Fifty-two species are enumerated, including forty new species, collected chiefly in the neighbourhood of Sydney.

*Fragmenta Phytographiae Australiae, xi.*, Supplement, pp. 70 – 74 and pp. 115 – 118 (1883).

*Victorian Naturalist, Vol. iv., pp. 88 – 95 (1887).*

A list of Australian species are given by the Baron, several of which are from New South Wales.
10. Wilson, Rev. F. R. M.

11. Wilson, Rev. F. R. M.
Two hundred and seventy-five species are enumerated by Wilson with the authorities of each for their occurrence in the field.

12. Zahlbruckner, Dr. A. von.
Several species are enumerated chiefly from Richmond River, Clarence River, National Park (near Sydney), and New England district.

13. Müller, Dr. Jean.
Two species are mentioned from Bellinger River, N.S.W., collected by Mr. J. H. Maiden.

14. Müller, Dr. Jean.

15. Maiden, J. H.
Eight species are given, determined by F. R. M. Wilson.

16. Baker, R. T.
Contribution to a knowledge of the Flora of Australia, No. 2—Proc. Linn. Soc. N.S.W., p. 446 (1899).
One species, namely Parmelliella Baeurlenti, (auct. ?) is mentioned.
17. Cheel, E.
   Director's Reports on the Botanic Gardens, Sydney, presented to the Legislative Assembly, New South Wales, 1901-2 and 1902-3.
   Several collections are mentioned from various parts of New South Wales and now deposited in the National Herbarium, Sydney.
18. Cheel, E.
   An exhibit of 47 species or varieties of New South Wales Lichens—*Proc. Linn. Soc. N.S.W.*, 1903.
19. Watts, Rev. W. W.
   A list of 27 Lichens, determined by Dr. Bouly de Lesdain of Dunkerque.—*Proc. Linn. Soc. N.S.W.*, 1903.
20. Hampe, Dr.
23. Krempelhuber, Dr. A.  (See 6.)
24. Mueller, F., Baron von.  (See 8.)
25. Mueller, F., Baron von.  (See 9.)
26. Wilson, Rev. F. R. M.
27. Wilson, Rev. F. R. M.

35. Shirley, J.

36. Müller, Dr. Jean.
Analecta Australiensia. (See 13).

37. Müller, Dr. Jean.
Lichenes Australiensis. (See 14.)

38. Labillardière, J. J.
*Novæ Hollandice Plantarum*, Vo. ii., p. 110 (1804).
39. Brown, R.

(See 106.)

40. Sprengel, C.

One species is mentioned, namely *Cladonia retipora*, Spreng. Syn. *Baeonyces retipora*, Labillardière. On p. 303, one species is mentioned from Nova Hollandia, but no province is given.

41. Taylor, Th.

42. Babington, Ch. and Mitten, W.

Ninety-two species are enumerated in this work, including several new and figured.

43. Krempelhuber, Dr. A. (See 5.)

44. Knight, C.

Notes on Stictei in Kew Herbarium—*Journ. Linn. Soc. (Bot.*)* Vol. xi., pp. 244-5 (1871).

96. Müller, Dr. Jean.
Lichenes Australienses. (See 14.)

**AUSTRALIA.**
The following works also treat on Australian Lichens.

97. Nylander, W.
*Synopsis Methodica Lichenum*, Fasciculus i., Paris 1858.

98. Nylander, W.

Several species of Australian Lichens are mentioned in this work showing the geographical distribution.

99. Leighton, Rev. W. A.

Leighton’s work enumerates a number of Australian Lichens showing the geographical distribution.

100. Wilson, Rev. F. R. M.

This work gives a brief history of Australian Lichenology.
