D^r B. S. Robinson

Dear Sir

I have just returned from my Mexican trip by way of California from present appearances may stay here this winter if so will overhauled my scrap notes of my various journeys. I would like a copy of Watsons paper containing the description of that new Corn Any thing you can send me regarding the plants collected by Pringle in Mexico

will be acceptable as I am
contemplating writing a paper
upon Mexican plants show-
ing how little reliance
can be placed upon native
name as often the same
plant has a different name
where ever found and not
always the same uses
attributed to it

Let me know if any
cost attend them that I
may return it

Yours sincerely
Edward Palmer
