There is also an English version of Hoedeman’s work, entitled *Encyclopaedia of water life*, loose leaf 1948–195?, which I have not seen.

The name *macropodinae* also appeared in Hoedeman (1954, pp. 472 and 476).

**Comments on the proposed placement of the name *Aphanius* Nardo, 1827 (Osteichthyes, Cyprinodontiformes) on the Official List**

(Case 3028; see BZN 58: 110–115)

(1) W. Villwock

*Zoologisches Institut und Zoologisches Museum, Martin-Luther-King-Platz 3, 20146 Hamburg, Germany*

I support the application by Prof Dr M. Kottelat and Mr A. Wheeler.

I protest strongly against the invalid introduction of the generic name *Lebias* Goldfuss, 1820 by Dr K.J. Lazara in 1995 in place of the well known and long used name *Aphanius* Nardo, 1827. I shall continue to use *Aphanius* because the adoption of *Lebias* would lead to considerable confusion in the literature concerned.

(2) Juraj Holčík

*Institute of Zoology, Slovak Academy of Sciences, Dúbravská cesta 9, 842 06 Bratislava, Slovakia*

I support the conclusions of the application by Kottelat & Wheeler to place *Aphanius* on the Official List. I agree with them that, as most species of *Aphanius* are threatened and listed as endangered in most of the Mediterranean region, the nomenclatural change to *Lebias* proposed by Lazara (1995) is very unfortunate. I urge the Commission to approve the application and retain the name *Aphanius*.

(3) R.H. Wildekamp

*Aug. de Witstraat 5, 5421RK Gemert, The Netherlands*

I write to support the application that has been submitted to the Commission by Kottelat & Wheeler to place the name *Aphanius* Nardo, 1827 on the Official List. My use of the name was explained in Wildekamp, Kâçük, Ünlüsain & van Neer (1999).
