

## 8. CRUSTACEA: BRACHYURA AND ANOMURA FROM DIEGO GARCIA

J. D. Taylor

This list consists mainly of species collected in July 1967 by J. D. Taylor, who also made the identifications. The specimens are deposited in the British Museum (Natural History). Previous records are also included in the list; these are mainly small collections made by expeditions during short stops at the Atoll. The most notable of these are those of the Deutsche Tiefsee-Expedition (Doflein 1904, Doflein and Balss 1913, Balss 1912) and of the Percy Sladen Trust Expedition (Rathbun 1911, Laurie 1926, Borradaile 1907). The crabs in the Desjardins Museum of the Mauritius Institute were listed by Ward (1942), and amongst them were many species from Diego Garcia collected by J. Morin in 1936.
