200 Recent Literature. [April

descriptions are brief, rarely occupying more than five to ten lines, and relate generally to the adult plumage only. It is, therefore, what it purports to be, a 'Descriptive Catalogue,' rather than an elaborate treatise, and despite the absence of much that might be desired, did the scope of the work render it admissible, will prove extremely useful as a manual of Argentine ornithology. Ten beautifully colored plates illustrate the first volume, devoted to the Passeres. Volume II, treating the remaining orders, is announced to appear during the present year. — J. A. A.

Brodie, W. The European Sparrow. Passer domesticus. (1 leaf, 4to size, no date).

Morse, E. A. Presidential Address, delivered before the American Association for the Advancement of Science, at the New York meeting, Aug. 1887. (8vo, pp. 43.)

Sharpe, R. B. (1) Notes on a Collection of Birds made by Mr. John Whitehead, on the Mountains of Kina Balu, in Northern Borneo, with Descriptions of new Species. (Ibis, Oct. 1887, pp. 435-454, pl1. xiii,
GENERAL NOTES.

*Aechmophorus occidentalis* in Kansas. — I wish to place on record the capture on the Kansas River at this place, on Nov. 3, 1887, of a young male of the Western Grebe, *Aechmophorus occidentalis* (Lawr.). It was shot by a colored man, who brought it to me as a curious bird. The species has never before been taken farther east than Manitoba and the Gila River in New Mexico. Its capture here extends its eastward range more than a thousand miles. The following measurements were taken:
